

**North Carolina State University - ClassEval Report**

Emplid: 200209631	Name: Le Chen -- Course: Fund of Econ
Term: 2021 Fall	EC 205 003 Courses surveyed - EC 205 003
<b>Question</b>	<b>Response</b>
Please comment on the strengths of the course and instructor.	She was knowledgeable about the material and offered plenty of extra time and opportunities to understand the work
Please comment on the weaknesses of the course and instructor.	Instruction time was not very engaging.
To help other students in the future and enhance student success, what could be improved in the course?	More student interaction during the lectures, use of tophat might be good.
-----	-----
Please comment on the strengths of the course and instructor.	I liked the review sessions on Friday. The class was straight to the point and I didn't feel that there was any time wasted.
-----	-----
Please comment on the strengths of the course and instructor.	This course was very well structured and effectively taught. This course gave me a good understanding of both micro- and macroeconomics, as promised. Le always explained things well, and was happy to answer questions. The problem sessions and practice tests were very helpful and I like that they were given on paper.
Please comment on the weaknesses of the course and instructor.	Nothing, Le did a great job!
-----	-----
Please comment on the strengths of the course and instructor.	Clear teaching. Good job.
To help other students in the future and enhance student success, what could be improved in the course?	No, she did a good job.
-----	-----
Please comment on the strengths of the course and instructor.	The course material is pretty easy and the instructor does a great job of explaining it.
-----	-----
Please comment on the strengths of the course and instructor.	The instructor explained things very well. The course gave me a good introduction to economics.
Please comment on the weaknesses of the course and instructor.	Sometimes it was difficult to take notes because the presentation slides moved to fast. Also, some students were not very engaged in the class.
To help other students in the future and enhance student success, what could be improved in the course?	Different presentation speed and more ways to engage students.
-----	-----
Please comment on the strengths of the course and instructor.	Professor was responsive to COVID and provided slides prior to class. Also gave lots of examples and helped work through them to help us understand. No attendance policy helped alleviate stress with COVID.

To help other students in the future and enhance student success, what could be improved in the course?	I think this course was great and the professor taught well and planned well. I liked the M/W lectures and Fri review sessions. No improvements needed.
-----	-----
Please comment on the strengths of the course and instructor.	I really appreciated that Chen reminded us when a problem set was due. She also taught the graphs well. I also liked that she let out class early if she finished early.
Please comment on the weaknesses of the course and instructor.	Lectures weren't very engaging until the end.
To help other students in the future and enhance student success, what could be improved in the course?	More engaging lectures and maybe have the practice problems mixed in.
-----	-----
Please comment on the strengths of the course and instructor.	I liked the way she taught with all the practice problems and similar practice tests
Please comment on the weaknesses of the course and instructor.	I did not find any weaknesses
To help other students in the future and enhance student success, what could be improved in the course?	I felt like the course was run perfectly.
-----	-----
Please comment on the strengths of the course and instructor.	Dr. Chen presented information in a very clear and concise manner which helped me to understand the material much quicker than if I had to learn from a textbook on my own. I really appreciated that Dr. Chen actually taught and went over material in her lectures. Also, her tests were not supposed to be tricky or stump you, they were straightforward and really tested if you knew the material or not, which is very fair.
Please comment on the weaknesses of the course and instructor.	I think Dr. Chen didn't have any weaknesses in her course or her style of teaching. She was very personable and friendly to all students who asked for her help.
To help other students in the future and enhance student success, what could be improved in the course?	I do not think the course could be improved in any way, Dr. Chen did a very nice job with teaching the material and making it accessible to students to use during class.
-----	-----
Please comment on the strengths of the course and instructor.	Professor really wants students to learn, understand, and succeed. The practice problems on Friday as well was great help.
Please comment on the weaknesses of the course and instructor.	Felt like the teaching was just a slideshow some days.
To help other students in the future and enhance student success, what could be improved in the course?	Additional resources for help as apposed to just a text book and some slideshows.
